Children. Dr. Barbe's remarks were related to teaching and learning. He warned that with all the emphasis now on basic skills that we not forget that we must teach the child how to apply basic skills. To accomplish this goal the student must be involved in learning. "It must be an active, not a passive process," he said.

He also emphasized that we must catch the child being right rather than being wrong. "This helps to reinforce that which we want the child to learn," he said.

He continued by stating that the schools, homes and society must train the hearts as well as the brains of children. "Humanistic qualities are essential for the survival of the individual and our society," he said.

Members were given an opportunity to participate in discussion groups at the conference on a variety of topics including, communication, education for handicapped children, guidance, school law and insurance.

Bible School will begin each morning at 8:30 a.m. and end each day at 11:20 a.m. These three hours each day are designed to teach children the Bible and what it says about God and Jesus Christ; to teach them to honor and respect their nation; and to give them an opportunity for recreation, too.

We invite the parents in this area to bring their children to our Bible School and let them share this learning experience with us. There will be a class for each age group, beginning with age 3 and continuing through age 15. Come and enjoy our Vacation Bible School!

GUEST SPEAKER WILL BE AT BETHLEHEM CHURCH JUNE 11-12

Mr. David P. Ebaugh of Harrisburg, Pa., will speak at the Bethlehem United Methodist Church at Concord, Va. on Friday, Saturday and Sunday, June 11-13, 1976. His first session will be Friday at 7:30 p.m. Mr. Ebaugh has quite a following in the area because of his former appearances here in other years.

Mr. Ebaugh is an electronic engineer, Bible teacher, lecturer, Holy Land Tour leader, and Charismatic Seminar Speaker. He has written several books which include the following, "Revelations Makes Sense", "The Key to Revelations," and "Key To Tribulation."

As an inventor and engineer, he has contributed to modern appliances and office machines such as: The IBM Selectric and Executive typewriters Poleris and Subroc Missiles, various radar, satelite and estroneut systems.

He believes that the Bible interprets itself. A very though provoking teacher, he brings a fresh look at old ideas. He teaches that we are near to the end of this age and are on the threshold of traveled and lectured in Europe, the Mid-East and South America. As of at the time of this writing, we do not have a listing of his topics for this series of lectures, but he is intimately related to Bible prophesy in most of his presentations.

Usually, there is sufficient time for question and answer periods at the close of the lectures. The public is invited to attend.
